

# Life in the 1950s

Life in the 1950s was different from life today.

## Shopping

Many shops were small and sold different things. A butcher's shop sold meat and a bakery sold bread. Shopping is different today. Most people shop in supermarkets.

## Transport

People travelled by steam train, bus or trolleybus in the past. Some people rode motorbikes. Some motorbikes had a sidecar. Cars weren't as popular as they are now.

## Entertainment

Most people listened to the radio in the 1950s. Some people had televisions. There were only two channels. Children played games in the street. Children still play outside today, but stay away from busy roads.
