

Understanding divisibility 2

1 Share 13 cakes between 2 plates.

How many cakes are on each plate?

How many are left over?

There are cakes on each plate and cake left over.

$13 \div 2 =$ remainder

2 The cakes are packed into boxes of 3.

How many complete boxes can be made?

How many cakes are left over?

There are complete boxes and cake left over.

$13 \div 3 =$ remainder
